

TES-NA Parameter Specifications

Name: TES Sodium Salt (2-[2-Hydroxy-1,1-bis(hydroxymethyl)ethylamino]ethanesulfonic acid sodium salt)

CAS number: 70331-82-7

Molecular Formula: C₆H₁₄NNaO₆S

MW: 251.23

EC number: 642-884-6

Purity: ≥99%

Applicable PH value range: 6.8-8.2

pKa value: 7.5

Melting point: 231-235

Flash point: 121° C

Appearance: white crystalline powder

Product category: Now with the first-use type solution

Packing specification: 500g/bottle, 25kg/drum (customizable packaging)

Validity: 2 years

Storage conditions: Store at room temperature in an airtight container and place in a cool, dry, ventilated place.

Chemical structure:
